REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose applicant's method of controlling Reverse Power Control in a High Data Rate network by estimating reception conditions at a mobile terminal by estimating the carrier-to-interference, C/I, ratio at the mobile terminal, and then adjusting that C/I ratio depending on a handoff condition. Neither does the prior art disclose the setting of Reverse Power Control in each mobile terminal that is based on the required Reverse Power Control and the aggregate required reverse Power Control. Neither does the prior art disclose receiving the total required Medium Access Control channel powers from a given sector that comprises the aggregate required RPC channel power. No obvious combination of references would have taught one of ordinary skill in the art to make and use applicant's invention as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Creighton H. Smith whose telephone number is 571/272-7546. The examiner can normally be reached on M-F, alternate Fridays off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Fan Tsang can be reached on 571/272-7547. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
